

## Primo Cubano

there's some music  
that just rolls around inside you  
and comes out  
at the hips

rolling around onside of you

with the stacatto  
bop bop bop  
telling your feet  
what to do

that roll  
is everything

a lot of music doesn't have it  
can't imagine it

but when you hear it  
your hips know

bop bop bop  
and off you go
