

## the change time reels

The spirit and/or void      can have me  
whenever it or they want      or chance rings  
I welcome the difference and non existence  
or other sense      all that time brings  
and wonder now in this place      about my human heart  
and the love it feels  
curious, hopeful too      if deep feeling will survive  
new part or non part  
and the change time reels
