

after all

in the final analysis  
that other self  
is just you  
a part of you  
you didn't want  
too close  
banished to  
other selfness

out there  
communicated with  
observed  
given over to  
and immersed in  
when you needed  
a vacation  
from yourself

but there  
just you  
after all
